Dr. Ira Landrith of Nashville, Tenn., who this year will deliver the opening lecture, is one of the most delightful of southern orators and very much a man of affairs, interested in the various civic problems of the large southern city in which he lives and will bring to the Chautauqua audience not only some real worthwhile things but very much of the fun and humor of the south with its large colored population.

Mrs. Ida B. Cole, field secretary of the Chautauqua Institution, Chautauqua, N. Y., opens this afternoon a very charming series of the Chautauqua.

At 9 o'clock on Saturday will open the Junior Chautauqua. During the former two years of the Chautauqua, the boys and girls have been very much in evidence and it is expected that this year under the direction of Miss Lucille Thurman and W. L. Underwood and a corps of assistants that there will be more of them and that they will have a better time than either the two former years.

Saturday will introduce to the Chautauqua crowd the dean of the present session in the person of Dr. Charles Zuehlbin. It certainly takes a very strong man to appear on the program as often as Dr. Zuehlbin does on this one, but we think that all will be perfectly satisfied with his work at the close of the session. Dr. Zuehlbin is one of the big men of the coun-

try and is a specialist on city problems and his series of morning lectures will be devoted to that line as well as to an illustrated lecture on one of the evenings. In addition Dr. Zuehlbin will lecture on Emerson, Carlyle, and Ruskin as well as the very stirring title of "The Nation's Human Resources."

Mrs. Cole's lecture both on this day and on Tuesday will be of especial interest in that it will be on the subject of art and her lectures are to be illustrated by a series of exact reproductions of some of the most famous paintings of the world. ## STRIKERS TO BREAK RANKS

Haywood's Withdrawal as Leader of I. W. W.'s at Paterson, Causes Silk Mill Employees to Seek Their Former Jobs—Others to Follow

Paterson, N. J., July 18.—The break in the ranks of the silk mill strikers reported yesterday after an announcement that "Big Bill" Haywood was physically unable to continue leadership, is construed by the mill owners as abandoning their five months' trouble with the factory hands. It is expected that \$250,000 in wages has been lost, while the manufacturers are about \$1,000,000 out of profits.

The strike began February 25, when 17,500 hands were called out. The first break in the strikers' ranks occurred three weeks ago when the ribbon and broad silk branches succeeded in operating to full capacity.

The dyers, however, held firm until yesterday when some of them returned and it was predicted the entire body, 3000, would be back at the vats this week.

Manufacturers say that the season now lost was the most promising in the history of the spring and summer since 1907. Elizabeth Gurley Flynn, the young woman leader, who is at her father's home in New York, declared that she will not desert the strikers. Her absence from Paterson since Tuesday she explained by saying a sore throat kept her from her work.

"STOCK" ACTOR ATTEMPTS SUICIDE

"Goodbye mother and Agnes. I can't stand it any more. Pray for me."

H. A. RICH IS APPOINTED SENATOR'S SECRETARY

Washington, July 17.—Senator George Sutherland of Utah today appointed H. A. Rich as his secretary to succeed Horace H. Smith, who is to become assistant attorney of Salt Lake county.

For eighteen months Mr. Rich worked as stenographer in the offices of Booth, Lee, Badger, Rich & Parke in Salt Lake, and came to Washington to take up the study of law at Georgetown university. He is a cousin of Ben L. Rich of the Salt Lake law firm.

REUNION OF OLD TIME ATHLETES

New York, July 18.—Men who made records when American sport was in its swiftest days are making a three-day celebration of the twenty-fifth anniversary of the opening of Tattersall's Island, the famous summer home of the New York A. C.

The first gathering of old time athletes there yesterday had something of the scenes and sentiment which marked the recent reunions of the Blue and Gray at Gettysburg. Most of the old men made some sort of pretense of going through the things they did when they were 25 years younger, and, as in the case of some, 200 pounds or so lighter. The "old-time living athlete," was rolled onto the track in a rolling chair with a trained nurse protesting against his participation in the games. Harry Duermeyer, the founder and first champion of the shotput, hale and hearty at the age of 74 years, was also on hand.

O. L. Richards, formerly one of the hurdling champions, fondly caressed one of the timber gates, but he could not be induced to try a flight.

"That age," he said.

The celebration will conclude tomorrow with a baseball game.

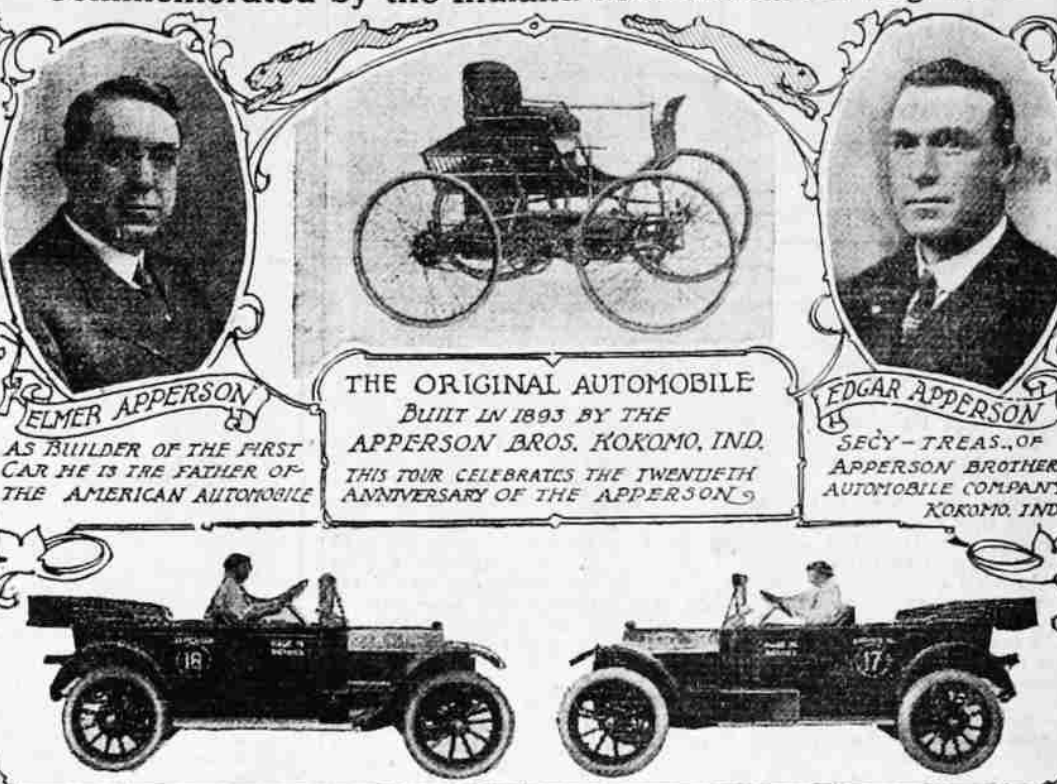

A LESSON IN PRONUNCIATION.

How do you pronounce that word, "divorcee?" Professor?" asked Mr. Slabside.

"Is it 'divorsay' or 'divorcee'?"

"Tab! all depends, my young friend," smiled the Professor. "When Mrs. Jones-Smythe-Wiggins got her first divorce I should have called it 'divorce-A,' but, now that she has come through with a third, I should say 'divorce-C' was a justifiable form."—Harper's Weekly.

## WAS 26 YEARS IN EMPLOY OF O. S. L.

At the close of the day's work on Wednesday evening, a large number of the Oregon Short Line Railroad company employees met in the store room to honor A. C. Wilson, an old faithful employee, who has just retired after 26 years' active service.

He was presented with a beautiful gold watch, chain and charm. General Foreman R. F. Higgs presenting it to him in a few well chosen words, expressing the high regard and appreciation of Mr. Wilson's efficient service during the past years, and of the good will and respect of all his fellow employees.

Mr. Wilson feelingly replied in a few words, thanking his fellow workers for their beautiful gift.

Mr. and Mrs. Wilson will leave in a few days for an extended visit to the coast.

CLAXTON TALKS TO TEACHERS

Greeley, Colo., July 18.—In an address before the summer session of the State Teachers' college, Professor P. P. Claxton, United States commissioner of education, said last night:

"More than 65 per cent of our children are educated in the rural schools and they form a large part of our population in the cities. Probably no city produces as many citizens as it kills, and the modern civilization with its complex problems and its nerve strain really eats children in the city."

He advocated giving the rural teacher a home and a tract of land in order that the teacher might become identified with the community and be able through the land to make a decent living.

ALIENS DECLARE FOR CITIZENSHIP

Washington, July 18.—Thousands of aliens who have declared their intention of becoming citizens of the United States may be debarred from realizing their hopes unless they file final applications for naturalization before September 27.

Richard K. Campbell, commissioner of naturalization, has sent letters to all examiners throughout the country calling their attention to this situation. Records show that there are forty thou-

sand aliens who have declared their intention but have filed final applications.

A large percentage of these made their declarations before the enactment of the present naturalization law, September 27, 1906, which requires that final applications be made not more than two nor more than seven years after the declaration of intention. Judge Jacob Triebel, of the Arkansas federal court, recently held that those who made declarations of intention before the new act would be barred from citizenship forever.

Those who declared their intention under the new law will have to wait two years if they do not put in their final applications before September 27.
